GENERAL INFORMATION

CAMERA READY ART:

'Camera-ready' refers to art and copy that is ready to be transferred to plates or screens without any retouching. Retouching includes art that has to be retraced, redrawn or reworked on the computer or by an artist. Images or type should be in black on a clean white background with at least 600 DPI (dots per inch). If artwork consists of several colors, a separate piece of art must be supplied for each color along with a composite. Colors have to be marked on each piece of artwork. Original art is reproduced using a high-resolution scanner. Any imperfection in the submitted camera-ready artwork will appear on the final product. Customer service will notify customer if camera-ready artwork needs corrections or if new art has to be submitted.

COMPUTER ART:

No art charge will be applied if camera-ready artwork is supplied on disk, e-mailed or uploaded to our website. All artwork (logos and copy) must be complete and in the position required. Artwork provided by e-mail or on disk must be vectorized for spot colors; otherwise products will be run as four-color process. All fonts must be provided with the art or type must be converted to path. If factory has to vectorize raster art additional art charges may apply.

NOT CAMERA READY ART:

Copies, hand sketches, FAX transmissions, poorly printed stationery, business cards, letter head, decals, photo copies and laser prints less than 600 DPI are NOT Considered CAMERA READY ARTWORK.
